

## Treatment & Rehabilitation Subgroup

13<sup>th</sup> January 2019 @ 1pm-3.30pm

Venue: Kavanagh House, Inchicore, Dublin 8

### Discussion Point

#### Statistics for Q4

- The Statistics gathered for Q4 were distributed prior to the meeting and presented here.
- The Co-ordinator asked that data is submitted on time to facilitate her diary and ensure inclusion in the statistics. 50% of group had submitted on time
- Data submitted by projects had been collated and sent to members with prep- a discussion took place as the type of data that can be extracted- including highlighting that trends though anecdotal may not always have evidence to prove them. It was agreed that although qualitative data plays an important role, there is a clear need for quantitative data to provide some substantive evidence if the T&R group or the CCLDATF are to advocate local needs on a national scale or for funding purposes.
- Only one project is currently submitting to the NDTRS which also limits the ability to take part in national dialogue.
- No Gaps and Blocks had been submitted this quarter- and most in Q3 were on a national scale, discussion that although group should feed into the national picture- it would not be beneficial to focus solely on gaps unattainable to CCLDATF or this T&R group
- The use of eCass system is varied across all the projects, it was suggested that projects could link with each other to offer tips, a proposal has been submitted by the Co-ordinator to the CCLDATF for training and implementation, and that EncludeIT also provide supports to individual projects as part of their contract.

#### Definitions of terms used by group

As part of the discussion general terms often used and also in the report were agreed and described by the group were finalised by the group

#### AOB

CCLDATF website is currently under review- two outstanding projects were asked to submit their data and logo for inclusion.

#### Agenda for next meeting

1. Gaps/ Blocks and issues identified by group for work plan agreement and prioritisation
2. Statistic inclusion (which groups, new clients/existing)

Drug of Choice by quarter	Alcohol	Cannabis	Benzos	Cocaine	Opiates	Methodone (prescribed)	Crack Cocaine	Amphets / Ecstasy / Stimulants	Other	Methodone (street)	Total
Quarter 1	0	0	0	0	0	0	0	0	0	0	0
Quarter 2	0	0	0	0	0	0	0	0	0	0	0
Quarter 3	110	83	49	44	59	28	15	10	11	3	412
Quarter 4	152	101	77	67	50	37	25	7	8	2	526
<b>Total</b>	<b>262</b>	<b>184</b>	<b>126</b>	<b>111</b>	<b>109</b>	<b>65</b>	<b>40</b>	<b>17</b>	<b>19</b>	<b>5</b>	<b>938</b>
